

PRODUCT DATASHEET

AQUASALT[®] FOR SALT WATER SWIMMING POOLS-EVAPORATED FOOD QUALITY

PRODUCT

Evaporated Food Quality AQUASALT[®] is intended for use in swimming pools with a chlorine generator or salt water sanitizing system and not for human consumption. AQUASALT[®] is greater than 99% sodium chloride or NaCl. The purity and crystal size are designed to produce the fastest dissolve rate in swimming pools and spas with chlorine generators.

PROCESS

The product is made in the mechanical vapor recompression evaporating system from saturated brine. The salt is dried and screened for even distribution and dissolving.

DIRECTIONS FOR USE

AQUASALT[®] should be distributed over the greatest water surface area possible to result in the fastest dissolve rate. Follow the Chlorine Generator Manufacturer guidelines for quantity and frequency of adding salt. Avoid piling the salt on the pool surface and brush as necessary until fully dissolved.

TYPICAL BULK DENSITY

76-80 lbs. per cubic foot

PACKAGE

The product is packaged in recyclable polyethylene film bags. The bag has a built in soft handle.

TYPICAL CHEMICAL ANALYSIS			
Constituent		Weight Percent	
Sodium Chloride		99.9	
PACKAGING
